第33弹

原文:腾讯已经成为一家业务广泛的互联网运营商,整合社交媒体、付款和电子商务,并且正在引领下一代互联网的发展。

中文: Tencent has become an internet operator with a wide range of businesses, integrating social media, payments and e-commerce and is leading the next generation of the internet.

分解:

1. 腾讯已经成为一家业务广泛的互联网运营商

Tencent has become an internet operator with a wide range of businesses,

- 1) 互联网运营商:an internet operator,注意冠词要用 an,因为后面是原音
- 2) 业务广泛的:这个概念相对比较复杂,最好写成后置定语,with a wide range of businesses(有着广泛范围的业务); 比如:A smartphone has a wide range of applications. (一部智能手机有着广泛的用途)

2. 整合社交媒体、付款和电子商务,

integrating social media, payments and e-commerce

- 1)整合:用 integrate,这是一个及物动词,在这里用现在分词,和后面的宾语构成分词短语,作为前面主句的伴随状语
- 2) 社交媒体、付款和电子商务:social media, payments and e-commerce,记住

这三个重要的互联网时代的术语

- 3. 并且正在引领下一代互联网的发展。 and is leading the next generation of the internet.
- 1) and 是并列连词, is leading 的主语是最前面的 Tencent
- 2) 下一代互联网的发展:the next generation of the internet,这里根本不需要写"发展",因为 is leading the next generation of the internet="引领互联网的下一代",就是"引领互联网下一代的发展"。"发展"这个词实际上在这里术语冗余的概念。

最后再自行对照学习一遍:

原文:腾讯已经成为一家业务广泛的互联网运营商,整合社交媒体、付款和电子商务,并且正在引领下一代互联网的发展。

中文: Tencent has become an internet operator with a wide range of businesses, integrating social media, payments and e-commerce and is leading the next generation of the internet.
