## 第 179 弹

原文:起床后三小时左右是注意力的巅峰时期。所以我们最好在早上9:45 左右做一天中最繁重的工作。

翻译: One's concentration level peaks around three hours after getting up, so it is best to do the most taxing jobs of the day at around 9:45am.

## \*全盘语法划分:

One's concentration levels (主语) peak (谓) [around three hours after getting up] (时间状语), **so** (连词) it (形式主语) is (系动词) best (表语) [to do the most taxing jobs of the day at around 9:45am] (不定式作主语).

## \*分析:

1. 起床后三小时左右是注意力的巅峰时期

One's concentration level peaks around three hours after getting up

- 1)转化为:一个人的注意力水平达到巅峰,在起床后三小时左右
- 2) "一个人的注意力水平": one's concentration level
- 3) "达到巅峰":peak(可以作为不及物动词)
- 4) "在起床后三小时左右": around three hours after getting up
- 2. 所以我们最好在早上 9:45 左右做一天中最繁重的工作。 so it is best to do the most taxing jobs of the day at around 9:45am.
- 1) 写成形式主语句,句式会更紧凑: it is best to do sth. (做某事是最好的。)
- 2) "在早上 9:45 左右做一天中最繁重的工作":"=把一天中最繁重的活留在 9:45 左右" --to do the most taxing jobs of the day at around 9:45am(taxing:费力的、繁重的)

原文:起床后三小时左右是注意力的巅峰时期。所以我们最好在早上 9:45 左右做一天中最繁重的工作。。

翻译:One's concentration level peaks around three hours after

getting up, so it is best to do the most taxing jobs of the day at around 9:45am.

## 重点收获:

1) concentration level:注意力水平

2) peak: vi. 达到巅峰

3) it is best to do sth.: 做...是最好的

4) taxing:费力的、繁重的
