第 184 弹

原文:中国的经济增速或许已经放缓,但中国仍在以惊人的速度产生高净值人群(high-net-worth individuals)。

翻译: China's economic growth rate may have slowed, but the country continues to produce high-net-worth individuals (HNWIs) at a startling pace.

*全盘语法划分:

[China's economic growth rate] (主语) [may have slowed] (谓语), **but** (连词) [the country] (主语) [continues to produce] (谓语) [high-net-worth individuals (HNWIs)] (宾语) [at a startling pace] (状语).

*分析:

1. 中国的经济增速或许已经放缓

China's economic growth rate may have slowed

- 1) "中国的经济增速" : 即 "中国经济的增长速率" = China's economic growth rate
- **2**) "或许已经放缓": may have slowed (slow 可以作不及物动词, 表示"放缓")
- 2. 但中国仍在以惊人的速度产生高净值人群(high-net-worth individuals)。

but the country continues to produce high-net-worth individuals (HNWIs) at a startling pace.

- 1) "仍以惊人的速度":at a startling pace (这个部分作为表程度的状语,可以放在句末; startling: 惊人的,相当于 surprising, striking等)
- 2) "中国仍然产生高净值人群":this country continues to produce HNWIs(前面用过China,这里用the country指代即可; "仍然产生" = "继续生产" = continues to produce)
- 3) 高净值人群:high-net-worth individuals(记住这个缩写:HNWIs)

*最后再对照学习一下:

原文:中国的经济增速或许已经放缓,但中国仍在以惊人的速度产生高净值人群(high-net-worth individuals)。

翻译: China's economic growth rate may have slowed, but the country continues to produce high-net-worth individuals

(HNWIs) at a startling pace.

重点收获:

1) growth rate:增速

2) slow:可作不及物动词

3) high-net-worth individuals: 高净值人士

4) at a startling pace:以惊人的速度
